minimalist *murals*

A painted wall mural instantly opens up a room – and your imagination. Instead of covering an entire wall, why not define a special area with a little artistic flair? Paint direct onto your wall or furniture or take advantage of the flexible décor trend and paint onto a surface like foam board for a moveable mural to add style to a rental property or so you can move it room to room and take it when you move to a new address.

Left: Wall in Resene Poured Milk, floor in Resene Indian Ink with cityscape mural in Resene Indian Ink and Resene Sorbet – achieved through some creative masking.

Right: Wall in Resene Rainee, skirting painted Resene Alabaster and door and 'hello' painted Resene Gordons Green.

graphical botanicals

With so much time spent inside, murals made with hand-drawn illustrative florals in bold colours and botanical shapes have been sprouting indoors. They're the perfect way to bring the outdoors in to enjoy year round.

Left: Wall and floor in Resene Despacito. Mural painted in Resene Moccasin, Resene Shabby Chic, Resene Dapper and Resene Artemis.

Above left: Wall in Resene Aura, floor in Resene Despacito with mural created on foam board with hand-cut floral-shaped pieces of Resene Wallpaper Collection GP5910, Resene Alabaster flowers and leaves outlined in Resene Noir.

Above right: Create a bold tropical backdrop that needs no watering! This hand-drawn mural inspired by a bird of paradise flower features three on-trend colours: spicy red, emerald green and lilac. The wall is painted Resene Dreamtime with leaves in Resene Atlas and Resene Red Herring. To the left of the mural, the wall is in Resene Rice Cake.
