

Resene colour charts are updated regularly. This colour chart file is part of the colour chart archive, which we provide so you can view Resene colours that have been available over the years. Most older colours can still be tinted – check with your Resene ColorShop team if you need an older colour for your project.

Resene the Paint the Professionals use

RESENE SEMI GLOSS THE PAINT FOR CONCRETE

Interior/Exterior latex paint for concrete, stucco, asbestos cement, brick and interior wallboards, timber and wallpapers. Requires no undercoat, quick drying, brushes wash in water. Coverage approximately 8-12 square metres per litre and can be recoated within the hour.

See also, Resene Semi Gloss standard colour card for an additional 45 colours.

RESENE MATT LATEX THE PAINT FOR WALLPAPER

An interior/exterior latex paint for concrete, asbestos cement, brick, interior wallboards, timber and wallpaper. Dries to an even luxurious matt finish, requires no undercoat, is quick drying, and brushes wash out in water.

Coverage approximately 8-12 square metres per litre and can be recoated within the hour. For an additional 30 colours see the Resene Matt Latex colour card.

RESENE HI-GLO ACRYLIC HOUSE PAINT

Interior/exterior acrylic enamel for weatherboard and exterior sheathings. Hi-Glo Acrylic House Paint is designed for direct application to primed timber and previously painted surfaces. Coverage approximately 12-16 square metres per litre and can be recoated within the hour.

Brushes wash out in water.

For additional colours see the Resene Hi-Glo colour card.

RESENE SUPER GLOSS INTERIOR/EXTERIOR ENAMEL

Resene Super Gloss Hard Enamel is specially formulated for use inside and outside where a long-lasting high gloss finish is required.

Resene Enamel covers approximately 16 sq. metres per litre and is available in an additional 80 colours.

RESENE SUPER GLOSS ENAMEL UNDERCOAT

Resene Super Gloss Enamel Undercoat is especially formulated for use under Resene Super Gloss Enamel to provide high build and obliteration. It is available in the full range of BSS colours and it is strongly recommended that matching undercoats always be used. Most bright colours, i.e., 0-001 and 0-005, will require a third coat for complete obliteration.

COLOUR REFERENCE BSS 2660 101 COLOUR RANGE

The colours in this range are divided into 10 groups for convenience of comparison numbered from 0 to 9.

Group 0 contains the strong colours.

Group 1 indicates Red tone.

Group 2 indicates Yellow Red tone.

Group 3 indicates Yellow Red tone.

Group 4 indicates Yellow tone.

Groups 5 and 6 indicate Green Yellow and Green tone.

Group 7 indicates Blue Green and Blue tone.

Group 8 indicates Purple, Blue and Red Purple.

Group 9 indicates Grey tone.

The colour chips on this chart are shown in a semi gloss finish and there may be minor variations when comparing High Gloss and Matt finish against these colours.
