Crown

Crown Timber Colour is a 100% acrylic low sheen self-sealing exterior finish for use on fences, pergolas and decking. No primer is required except over bare metal. Available in a range of colours perfect for the great outdoors.

Quick Tips:

- Timber decking and close tight grained timbers must be sanded to rough finish to obtain correct key.
- If timber to be painted is exhibiting sap staining or excessive tannin bleeding then it should be primed with Resene Wood Primer (see Data Sheet D40).
- Apply two coats at 12-14 square metres per litre by brush, roller or spray.
- Do not apply coating in thick coats otherwise drying and curing may be affected.
- Touch dry in 30 minutes, recoat after 2 hours.
- Can be reduced with up to 5% clean water or Resene Hot Weather Additive if required. Keep thinning to a minimum.

For a premium finish try Resene Lumbersider satin acrylic (see Resene Data Sheet D34) available in thousands of colours from the Resene Total Colour System.
