

Resene colour charts are updated regularly. This colour chart file is part of the colour chart archive, which we provide so you can view Resene colours that have been available over the years. Most older colours can still be tinted – check with your Resene ColorShop team if you need an older colour for your project.

To view the latest Resene colour charts, visit www.resene.com/colour-charts

RESENE

SUPER-GLOSS

EXTERIOR - INTERIOR ENAMEL

Resene Super-Gloss Enamel is a durable, flexible, high gloss finish for interior and exterior painting.

Special Characteristics Are

Ease of application
Mirror gloss finish

Non yellowing
Exceptional obliteration

Where to Use

Outside

Use Resene Super-Gloss Enamel on all exterior weatherboards, window frames, and other timber surfaces.

Inside

Use Resene Super-Gloss Enamel on all surfaces in kitchens, bathrooms, laundries, and wherever a full gloss finish is required.

Resene Super-Gloss Enamel gives an ideal gloss finish to primed steel and other metal surfaces.

Application

Resene Super-Gloss Enamel may be applied by brush, roller, or spray. Resene Enamel covers approximately 800 square feet per gallon. All Resene Enamel colours are designed to cover white undercoat.

Special Colours

A same-day factory service is offered for specially mixed colours. Any desired shade will be matched in minimum quantities of one gallon at no extra charge.
