The excitement of the internet revolutionised

Green continues to anchor the palette with the interest in environmental sustainability continuing. Healthy greens drawn from landscapes and agriculture, expressed most commonly as yellow greens and clean greens dominate. In The Range 2009 we see this environmental focus underpinning a variety of hues, as even the reds and purples tend towards vegetal colours. Eco-conscious consumers combine their environmental responsibility with an eye for design so that green products cannot survive on green credentials alone. Environmental awareness is well and truly established in the mainstream. An ever increasing range of environmental options creates a whole new learning curve and a curious juxtaposition for those new to environmental consumerism balancing the desire to consume with the wellbeing. Enjoy! desire to minimise their environmental

combined with a nod to reds joined by a quid extroverted pink. Orang vellows bronzed cor prevalence of healthy gre

Blues are watery and slate blues and grey bl ocean blues continuing f The slate blues are introspective, soothing the senses. Purples lean towards blue undertones. Dusty purples have made way to the influx of soft greys.

seemingly timeless neutrals that have remained popular through many decades. A throng of previously seen browns have made way to deeper greys and darkest blacks with Blackjack cc than just black. Near whites have an influence over the palette, providing a fresh Bledisloe cc contemporary backdrop upon which the Bluegrass cc drama in other colours can be seen.

neutrals come to the fore, particularly greyed off hues that provide a secure base to complement the warm mid tones and move away from sandy neutrals. Colour use is becoming increasingly seasonless and tergenerational with both ends of the age spectrum selecting the same palette of hues. ince pastels were the domain of the elderly more and more these hues are being confined to baby rooms and are being transformed into complex neutrals and mid tones in other areas. As our colour palettes have become more sophisticated pastels do little to satisfy our desire for colour depth.

bronze, coming to the fore. Where once we might have moved house to get a new sense of invigoration and space, today we're more inclined to do more with what we already have, remodelling and

A celebration of all that is life with an underpinning, the hues of The Range 2009 are brought together in a warm palette of

The Range 2009 fandeck is part of the leading edge The Range collection, a series of colour tools favoured by colour professionals.

 A fashion collection of classic and contemporary hues designed for the year 2009, making it easy to develop a fashion finish on all projects. Large colour swatches to provide a better appreciation of the colour value.

Key features include:

Swatches are flush to the right edge of each page to facilitate matching with other swatches. Innovative 'colour isolators' allowing colour chips to be isolated without the

confusion of other colours. The isolators are finished in a neutral shade of grey, an internationally recognised standard that shows the colour at its truest (AS4004-1992).

 A 'gloss indicator' to help you visualise a gloss paint surface (the chips are presented in Resene SpaceCote Low Sheen, a low sheen paint finish).

 Approximate reflectance value and tone information included in an alphabetically sorted index and on the back of each colour chip for easy reference.

 RGB value and colour match pencil information included on the back of each colour chip for easy translation from physical colour swatch to rendered colour.

 Colour scheme suggestions printed on the reverse of each colour chip to assist you in your colour selection.

Individually coded colours allowing you to cross-reference them back to the Resene Total
