

Resene colour charts are updated regularly. This colour chart file is part of the colour chart archive, which we provide so you can view Resene colours that have been available over the years. Most older colours can still be tinted – check with your Resene ColorShop team if you need an older colour for your project.

PICKLED BLUE WOOD

LIMED OAK

Resene Woodsman penetrating oil stain exterior

Resene Woodsman is a newly researched concept in fully penetrating oil based stains. It combines exceptional protection with easy application in a new range of colours.

WHERE TO USE

Woodsman is an ideal product for all exterior timber surfaces, new or weathered, rough sawn or dressed, including:

- weatherboards
- board and batten cladding
- plywood and profiled sheets
- garden furniture
- fences and beams where enhancing the timber's natural appearance is desired.

COLOUR RANGE

The new Woodsman colour range includes colours specially formulated for use on cedar as well as introducing an entirely new colour concept in exterior timber stains. Pickled and limed colours provide an exciting alternative to the traditional colour ranges available. Formulated from a modified base, pickled and limed colour formulations provide the latest in international colour trends and exterior semi-transparent timber finishes.

Limed colours are
only available in
Waterborne Woodsman

*Resene Test Pots including
Woodsman colours
help you plan your whole
house colour scheme,
so you know you'll like it before you paint it.*

RESENE WOODCARE RANGE

The Resene Woodcare range offers the trade professional and home handyman a product suited to almost every interior and exterior timber application.
