

Difficulty level ★★☆☆ easy ★★ moderate ★★ challenging

Resene kids art with Mark Rayner – 24

You will need:

- Book of colourful stickers
- Laminated MDF clock
- Paintbrushes
- Resene Lumbersider tinted to Resene Fizz
- Resene Waterborne Smooth Surface Sealer
- Sandpaper

Step one

Carefully remove the clock batteries and lightly sand the clock face with the sandpaper, taking care not to damage the clock's hands – you might need a grownup to help you with this bit.

Step two

Apply one coat of Resene Waterborne Smooth Surface Sealer to the clock face – make sure you don't get any on the clock's hands. Allow to dry.

Step three

Paint the clock face with one coat of Resene Fizz – again be careful when painting around the clock's hands. Allow to dry.

Step four

Apply a second coat of Resene Fizz to the clock face. Allow to dry.

Step five

Apply twelve large stickers around the clock face, as shown – make sure they're in the same position as the original clock numbers.

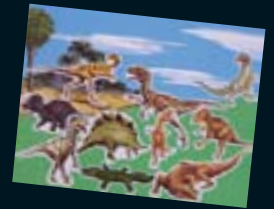

Step six

Apply smaller stickers around the centre of the clock face. Put the batteries back in the clock and set it to the right time.

Top tip:

Colourful sticker books are available from most book and craft shops.

Here's another idea:

Create an instant artwork using testpots of Resene Wham and Resene Malibu and some dinosaur stickers.
