

★★★ Difficulty level ★ easy ★★ moderate ★★★ challenging Fun with furniture with Mark Rayner – 44

Breathe new life into a tired outdoor chair using Resene GP Metal Primer and Resene Lustacryl.

### You will need:

- Clean cloths
- Bucket of warm soapy water
- Mineral turpentine
- Outdoor chair (ours had a metal frame)
- Paintbrush
- Paint stirrer
- Resene GP Metal Primer
- Resene Lustacryl tinted to Resene Escape
- Resene paint pot
- Sandpaper

#### Step one

Wash the chair thoroughly with warm soapy water to remove any dust and dirt. Rinse with clean water and allow to dry.

#### Step two

Lightly sand the metal frame with sandpaper to remove any light rust and to 'key' the surface.

#### Step three

Wipe off any sanding residue with a clean cloth.

#### Step four

Carefully stir the Resene GP Metal Primer.

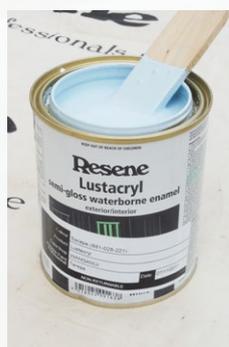

#### Step five

Apply one coat of Resene GP Metal Primer to the metal frame and allow to dry.

#### Step six

Clean the brush in mineral turpentine.

#### Step seven

Carefully stir the Resene Lustacryl.

#### Step eight

Apply two coats of Resene Lustacryl to the metal frame allowing two hours for each coat to dry.

### To get the look:

Mark painted the gazebo floor with Resene Walk-on flooring and paving paint tinted to Resene Inside Back.

### Other ideas:

For a greater contrast paint the chair frame with Resene Lustacryl tinted to Resene Diesel.
