

CONCRETE BLOCK

SEALER

one coat
waterproofs and decorates

CONCRETE BLOCK SEALER — Concrete Block Sealer is the ideal paint for concrete blocks. It consists of a heavy coat paint, Latex based, which has been designed to fill all minor voids and provide, in one coat, a completely waterproof Surface.

There are two points to remember:

1. All the surfaces must be free from oil and loose materials.
2. Take care to brush Concrete Block Sealer well into all voids.

"Concrete Block Sealer" is obtainable in Black Grey and White; however, your Colour will be made up on request.

Concrete Block Sealer is based on our famous Resene Semi-Gloss formula which has been used with outstanding success throughout New Zealand for over 12 years.
