KEEP OUT OF REACH OF CHILDREN
Resene Qristal ClearFloor 2K is a two pack waterborne urethane durable flooring finish designed to protect your wooden flooring and keep it looking its best for longer.

First Aid

If Inhaled: Remove from contaminated area. Get fresh air and rest. If breathing is difficult, give artificial respiration. If breathing stops, artificial respiration and cardiac resuscitation may be necessary.

If Swallowed: Do not induce vomiting. Seek medical assistance immediately. Do not give anything by mouth to an unconscious person. Give small amounts of water to dilute the product from the stomach. DO NOT GET INTO EYES.

If skin contact occurs: Wash skin with plenty of soap and water. If skin irritation or rash occurs: Get medical advice/attention.

If in eyes: Rinse both eyes with plenty of water for at least 15 minutes. If irritation persists: Get medical advice/attention.

For tips on minimising the impact of your decorating on the environment see the Resene website.

Be PaintWise

For further information on the impact of your decorating on the environment see the Resene website.

Clean up: Warm water and detergent.

When mixed with the correct hardener contains isocyanates. When sprayed, this product MAY BE HARMFUL BY INHALATION. Do not breathe vapour or spray. Avoid contact with skin and eyes. Wear suitable protective clothing, gloves, eye and face protection including suitable breathing protection such as an air-supplied respirator or hood.

Dispose of in a safe place for at least 48 hours for outgassing to be satisfied, if a thin clearly defined film of water leaves a fingerprint when pressed.

Do not use gas or diesel burners to heat coated area. Drying is dependent upon temperature and humidity. Proper ventilation is essential to ensure complete drying. Drying time is approximately 48 hours to touch dry at 18ºC. Thinning: Do not thin the waterborne urethane acrylic finish. If a glossy or satin finish is required, an appropriate waterborne urethane topcoat can be applied without the need for additional thinning. Recoat time: Minimum – 2 hours at 18ºC. Maximum – 3 days at 18ºC.
