the paint the professionals use

Write on your walls with whiteboard markers without damaging the surface with Resene Write-on Wall Paint. Resene Write-on Wall Paint is a two component waterborne clear coating designed to produce a whiteboard effect over previously painted or sealed substrates. Use only with high quality whiteboard markers using a whiteboard eraser or soft cloth to clean. Over a darker paint finish use high quality liquid chalk.

### Instructions for use:

Refer to Resene Write-On Wall Paint application and use instructions for instructions on preparation, mixing, application and use.

Permanent markers will not rub off the coating using rags or whiteboard erasers but they will not damage the coating. Use methylated spirits or other cleaning fluids to remove permanent markers. Occasional use of methylated spirits for cleaning will not damage the coating.
